

## Community Funded Initiatives for Bramshott

A report on possible traffic calming measures for Bramshott was brought to the Parish Council meeting on 28<sup>th</sup> September 2020 by District Councillor Angela Glass and County Councillor Floss Mitchell. The estimated cost of the combined projects could amount to £16,750 in total. As there were several options contained in the overall proposal it was requested that further clarification is brought to the next Council meeting.

Parish Council are asked whether to agree a fixed sum to be used towards this total cost, with the balance being sought from elsewhere; or whether to financially support specific measures.

The two key measures that could potentially reduce the speed of traffic entering Bramshott and also reduce the number of HGV's travelling through to gain access to Passfield are:

1. To install a single village gateway in Burgh Hill - £1,500-£1,750
2. To install a double village gateway in Church Road - £3,000-£3,500.

The gateways will help to address residents' concerns that Bramshott is being used as cut through to and from the A3 at the London Road. It also appears that Satellite navigation systems direct vehicles off the A3 to Church Road to gain access to Passfield. This has occasionally resulted in large HGVs becoming stuck at the junction between Church Lane and Tonbridge Lane, or having to reverse back through Church Road. An additional measure to reinforce (1) and (2) above may be:

3. To install four new "Unsuitable for Heavy Goods Vehicles" signs, using existing posts, in Church Lane and Tunbridge Lane - £500 total.

The cost of these three proposals would be between £5,000 and £5,750.

The remaining proposed measures are:

- (a) To install a double village gateway (including kerbing) in Tunbridge Lane (towards Burgh Hill) - £6,000-£6500
- (b) To install a double village gateway in Tunbridge Lane (towards Headley Road) - £3,000-£3,500
- (c) To use white lining in Church Road to narrow the carriageway - £500
- (d) To install Wild Fowl warning signs in Tunbridge Lane - £500

The parish council is asked to

- (a) approve these proposals under HCC's community funded initiative
- (b) to agree on how they are to be funded
