

## June Grounds Report

Hello to everyone. Since the last meeting we've managed to clear up most of the storm damage, this includes the fallen trees at Radford as well as the tree stump located at the LMC. The stump has been ground out, levelled and over-seeded.

The goal mouths at the Rec have been top-dressed and over-seeded which is taking very well and should be looking good in time for the new playing season.

We are now getting the LMC in shape for the Queens Jubilee which by the time of this meeting will have taken place. Fingers crossed the Jubilee event went according to plan.

The grounds team will be preparing and planting more orchard trees at Fletchers Field by the time of the next meeting.

We have now taken delivery of the new signs for the Recreation ground and these will have been installed at the Rec by the time of the next meeting too.

Summer is now here and we are endeavoring to keep the open spaces looking great by regular mowing and strimming all sites. I have also now locked up the skate park until further notice due to the amount repairs required to it.

There has been minimal litter being dropped on our public open spaces but as the better weather and longer daylight hours I'm expecting a slight increase but this is par for the course. What I have noticed recently is that the disposable bbqs have made an appearance on our sites.

Other news, our apprentice Isaac Monk has passed his PA1 and PA6 spraying course which is part of overall horticulture apprenticeship. Myself, Andy and Rick have also completed our first aid at work training course.

There has been no ASB reported to the police via 101 since the last meeting but have had reports of kids climbing over and on the old willows building located at the Rec.
