

April Grounds Report

Hello to everyone. Since the time of our last meeting I am pleased to inform the council that the verti-draining has taken place at the Recreation ground. This has improved the drainage and the ground is holding up well considering the bad weather we've had in the recent past!

The clearance of the compound area located within Radford has started and fingers crossed has finished by the time this meeting is taking place. This is the removal of the affected trees and the demolition of the old works building.

The tree survey has of all parish sites has taken place and we are awaiting the results of the report.

As we are now coming into the growing season, myself and the ground staff will be working on all sites, uplifting and making look more presentable now winter has finally finished!

I have great news to pass on to the members. Our apprentice Isaac has now finished his college work and I am pleased to inform you that he has passed his final exams so he is now a fully qualified member of staff.

As of the time of writing this report there have been no police required incidences taken place on our open spaces.

Dugg Budd
